

Heart Camp ...

Dreams from the Heart Camp was founded in 1994 by the physicians of Pediatric Cardiology Associates to provide a 3 day camp environment for their patients. All the campers have undergone heart procedures, including transplants in some cases. The campers have the opportunity to participate in activities such as swimming, canoeing, and a visit to an amusement park, under the watchful eyes of their physicians and nurses. The campers also have many opportunities to talk both formally and informally about their health situations and concerns. The camp is provided free of charge thanks to contributors such as yourself!

Paul Orrange...

Paul Orrange was a young man whose 21 years were marked by many surgeries as he lived with congenital heart disease. Paul's remarkable spirit and courage continue to inspire all who knew him and now, all that know of him. This walk is held in Paul's memory each year.

NOTE: walk is held on **SUNDAY** this year.....the Bills are on the road, so traffic will be light!

Dreams from the Heart Camp Walk
